**GEORGE GOUDREAU**  
**PRIMARY EXAMINER**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-32, 58-62, drawn to a method for plasma treating a substrate, classified in class 216, subclass 67 (+).
  - II. Claims 33-57, drawn to a plasma treating apparatus, classified in class 156, subclass 345.43 (+).

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process such as one in which a pressure less than 1 torr is used during the plasma treatment process.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor ship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner George A. Goudreau whose telephone number currently is (703) -308-1915. My telephone number will be changing to (571)-272-1434 at some
